

Snowflake Certification Prep — PJ's Academy

Complete, self-contained prep for **every SnowPro certification**. No external resources needed — study here, pass there. Each guide has domain notes, memory aids, and practice questions with answers.

 **Verify against the official exam guide as of July 2026** — Snowflake revises exam codes, domains, and weightings periodically. Confirm current details at snowflake.com/certifications before selling or sitting any exam.

The Full Certification Lineup

Foundational

Certification	Code	Guide
SnowPro Core	COF-C02	Study Guide · 60-Q Mock

Advanced (role-based) — *require Core*

Certification	Code	Guide
Advanced: Architect	ARA-C01	Guide
Advanced: Administrator	ADA-C01	Guide
Advanced: Data Engineer	DEA-C02	Guide
Advanced: Data Scientist	DSA-C02	Guide
Advanced: Data Analyst	DAA-C01	Guide

Specialty — *require Core*

Certification	Code	Guide
Specialty: Gen AI	GES-C01	Guide
Specialty: Snowpark	SPS-C01	Guide
Specialty: Native Apps	NAS-C01	Guide

That's the full SnowPro lineup — 9 certifications, fully covered.

Which Certification Should You Take?

Everyone starts here → SnowPro Core

Then pick your role:

- Build pipelines? → Advanced: Data Engineer
- Design platforms? → Advanced: Architect
- Admin an estate? → Advanced: Administrator
- Do ML? → Advanced: Data Scientist
- Do analytics/BI? → Advanced: Data Analyst

Add a specialty to stand out:

- Building GenAI apps? → Specialty: Gen AI
- Snowpark developer? → Specialty: Snowpark

Recommended Career Paths

Goal	Certifications	Outcome
Data Engineer	Core → Advanced DE → Specialty Snowpark	₹18–40 LPA
Data Scientist	Core → Advanced DS → Specialty Gen AI	₹20–45 LPA
Architect	Core → Advanced Architect → Advanced Admin	₹30–60 LPA
Analyst	Core → Advanced Data Analyst	₹10–25 LPA

What's Included Per Guide

- ✓ Exam code, duration, cost, passing score, domain weightings
- ✓ Detailed domain-by-domain notes with runnable SQL/Python
- ✓ High-yield "memorize these" fact lists
- ✓ Practice questions with answer keys
- ✓ A study plan

Plus: [SnowPro Core 60-question timed mock exam](#) and [Advanced Tutorials](#) for hands-on depth.

How to Study

1. Do the hands-on [projects](#) + [advanced tutorials](#) — Advanced exams are scenario-based.
2. Take each mock **twice** — once to learn, once to prove.
3. Focus on the "high-yield facts" — they're the common trip-ups.
4. Use a **free 30-day Snowflake trial** (\$400 credits) to practice for real.
